MEMORANDUM FOR TRANSPROC USERS

SUBJECT: Software Version Description (SVD) for Installation Support Module (ISM) Military Personnel Transition Processing (TRANSPROC) Interim Change Package (ICP) P5B-A26-11-01a-A

1. Enclosed is ICP P5B-A26-11-01a-A that provides a formal change to the Military Personnel Transition Processing (TRANSPROC) ISM.
2. Acknowledgement of installation of this ICP must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: NONE.

1. Scope.

1.1 Identification. This Software Version Description (SVD) applies to the Military Personnel Transition Processing (TRANSPROC) running on Army Standard Information Management System (ASIMS) and networked AIX operating system on UNIX platforms.

1.2 System Overview. TRANSPROC is part of the ISM Project which is an Army-wide Major Automated Information System (MAIS) initiative. The primary objective of ISM is to enhance, through automation, installation management functions. ISM applications consist of standard procedures packaged into functional applications which automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated DataBase (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The purpose of the TRANSPROC ISM is to support the personnel portion of demobilization and may be utilized to perform the peacetime (garrison) Military Personnel (MILPER) functions supporting Separation Processing, (Transition and Retirement), Documents, Orders, SIDPERS Transaction and Reports. It facilitates the preparation and administrative handling of records, forms, memos and orders; required forms have been automated. These administrative files are maintained on the Installation Level Integrated Data Base (ILIDB) or the application's local data base. Printed copies of DD Form 214, DA Form 664, separation memos and orders are produced as output.

1.3 Document Overview. This document provides the instructions necessary for the implementation of the formal Interim Change Package (ICP) P5B-A26-11-01a-A of TRANSPROC. It informs users of the changes made to the system and provides Points of Contact (POCs) to be contacted in case of problems.

2. Referenced Documents.

Change Control Package Number: P5B-A26-11-01a-A

2.1 Referenced Documents. This paragraph has been tailored out.

3. Version Description.

3.1 Inventory of Materials Released. This paragraph has been tailored out.

3.2 Inventory of Software Contents. Hardware platform - UNIX AIX OS users (installation supported).

This change package contains the following files.

PROGRAM	VERSION	UPDATE
README.transprc_1101a	1100	28 Mar 2000
transprc_1101a.cpio.Z	1100	28 Mar 2000
install_transprc_1101a	1100	28 Mar 2000

3.3 Changes Installed.

3.3.1 Corrector Descriptions - Technical.

1. ECP-S/E P5B-A05B-034
 - A. CYCLES: None.
 - B. PROGRAM: TRANSPROC
 - C. PROBLEM: TRANSPROC does not allow users to put in APOs for Japan and Korea. Japan and Korea cannot print final DD214's due to this problem.
 - D. RESOLUTION: Add APO addresses into the TRANSPROC DBs.
 - E. ICP: P5B-A26-11-01a-A

3.3.2 Corrector Descriptions - Functional. None.

3.3.3 Summary of Changes.

- a. Copy library member changes.
 1. Changed: None.
 2. Deleted: None.
 3. Added: None.
- b. Control library member changes.
 1. Changed: None.
 2. Deleted: None.
 3. Added: None.

Change Control Package Number: P5B-A26-11-01a-A

3.4 Adaptation Data. This paragraph has been tailored out.

3.5 Related Documents.

3.5.1 Technical Documentation Changes. There are no technical documentation changes to this ICP. The current version of Software Center Operator Manual (SCOM), AISM 25-P5B-A26-AIX-SCOM is dated 10 December 1999. This version of AISM 25-P5B-A26-AIX-SCOM may be obtained from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-SE-IS-ES, H-6
Fort Belvoir, VA 22060-5576

3.5.2 Functional Manual Changes. A new AIX version of Software User Manual (SUM), AISM 25-P5B-A26-AIX-SUM dated 01 December 1999 has been issued. This current version of AISM 25-P5B-A26-AIX-SUM may be obtained from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-SE-IS-ES, H-6
Fort Belvoir, VA 22060-5576

3.6 Installation Instructions. These instructions explain how to install TRANSPROC ICP P5B-A26-11-01a-A onto the host computer at the installations.

Pre-Install Procedure. Before beginning to install TRANSPROC ICP P5B-A26-11-01a-A onto the ISM host computer, follow this procedure to make sure you have the information you will need when installing.

STEP 1. Verify Oracle. The Oracle RDBMS must reside on the host and be on-line.

Change Control Package Number: P5B-A26-11-01a-A

Install Procedure. This procedure installs ICP P5B-A26-11-01a-A for TRANSPROC R11.01a AIX version 4.2 operating system baseline onto the installation server. This portion of TRANSPROC R11.01a must be installed on each server at the installation.

STEP 1. Log in with the login name of "root".

STEP 2. Change directory to the home directory for the user "transprc", or to /tmp. Make a directory called "ICP.1101a". Place the following files for ICP 1101a in the directory ICP.1101a.

transprc_1101a.cpio.Z	1855684	28 Mar 2000
install_transprc_1101a	1239	28 Mar 2000
README.transprc_1101a	1145	28 Mar 2000

STEP 3. Change directory to ICP.1101a and type:

```
chmod 777 install_transprc_1101a <Enter>
./install_transprc_1101a          <Enter>
```

STEP 4. The install_transprc_1101a will complete the following:

- a. Uncompress and uncpio the transprc_1101a.cpio.Z file into the home directory of user "TRANSPROC".
- b. Change the ownership of and copy the files.
- c. Record all output from each of the steps

performed

in a file named "transprc_1101a.log" located in the ICP.1101a directory.

STEP 5. Results of the installation in transprc_1101a.log should be reviewed.

3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

3.6.2 Security Implications. This paragraph has been tailored

Change Control Package Number: P5B-A26-11-01a-A

out.

3.6.3 ANSOC Installation Instructions. All users receive the same baseline with change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

Quantity	File ID	System	Change Package No.
1	transprc_1101a.cpio.Z	AIX OS 4.2	P5B-A26-11-01a-A
	README.transprc_1101a		

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Users must not, repeat, must not, make changes to the files.

Security impact: None.

3.6.4 Special Installation Instructions - All Users. None.

3.6.5 Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

3.6.6 Report of Implementation. Implementation of this change package must be reported by completing the change package implementation form. This report must be sent to Ft. Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors. This paragraph has been tailored out.

Change Control Package Number: P5B-A26-11-01a-A

4.0 Notes.

4.1 Notes. This paragraph has been tailored out.
